Profile:

After a successful career as a classical musician and having been interested in programming all my life, I started to learn coding professionally in 2017. I am Microsoft Certified Professional in HTML5, CSS3 and Javascript and very passionate to expand my knowledge in frontend and backend web development.

My Portfolio Site:

https://zufre.github.io

Education and Certifications:

- Microsoft Certified Professional 70-480 Programming in HTML5 with Javascript and CSS3
- Codecademy Pro: Web Development Track
- FreeCodeCamp: Responsive Web Design Certificate, Javascript Algorithms and Data Structures Certificate, Front End Libraries Certificate

Highlighted Projects:

Travel App
Simple search engine for finding the weather forecast and attractions of travel destinations. Built with HTML, CSS, Javascript and the Apixu Weather API.

Random Quote Generator
Built with React, generating random quotes with button to tweet current quote.

Restaurant Finder
React project powered by yelp API to search restaurants worldwide by business nature and city.

Web Based Calculator
Coded with React, simple web based calculator.

Toby Memory Game
Coded with vanilla Javascript, HTML and CSS.

Movie Browser
Movie DB search engine. Built with React and powered by the IMDB API.

Markdown Previewer
Coded with React, uses Marked.js.
